Education

Arizona State University

May 2021 – May 2025

Ira A. Fulton School of Engineering, B.S. in Computer Science

- GPA: **4.0/4.0** — **Dean's List** for 8 consecutive semesters (Fall 2021 – Spring 2025)
- **Moeur Award** (Top 0.5% of graduating class) — **Summa Cum Laude** – Class of 2025
- **NAMU Scholar** (2021 – 2024) — **IEEE Scholar** (2021 – 2023) — **Kaplan Scholar** (2021)
- **Captain** at ASU Men's Ultimate Frisbee Team
- Ranked **4th** at International Beach Ultimate Mixed Club Championships (IBUXCC), 2024

Experience

Great Hearts Veritas Prep

July 2025 - Present

High School Physics and Mathematics Teacher

- Delivered Physics and Mathematics instruction to 100+ high school students by designing engaging lessons, adapting explanations to varied learning needs, and reinforcing strong quantitative reasoning.

Laboratory for Learning Evaluation of autonomous Systems Lab, ASU

Oct. 2024 – July 2025

Research Assistant

- Developing a robotic dog (Unitree Go2) assistant with real-time, diffusion-based navigation and LLM-powered command processing to enhance safety and autonomy for visually impaired users.

Tnect Validation API – Bytewerx LLC

Aug. 2024 – May 2025

Fullstack Developer (Co - Op)

- Leveraged **Angular**, **ASP.NET Core**, and **Redis** to develop a secure API management platform with scoped API key generation and role-based access control (RBAC).
- Integrated token-based password recovery using **ASP.NET Identity** to enhance account security and reduce support overhead.
- Implemented Redis-backed rate limiting logic to **prevent abuse** and ensure scalable API access control.
- Built a real-time analytics dashboard to **visualize API key usage**, enabling users to monitor activity and improve integration tracking.

PI Academy

May 2024 – Jul. 2024

Software Engineer Summer Intern

- Engineered an application to segregate **400+** food waste types using image analysis, enhancing waste management efficiency and improving model accuracy by **9%** through ensemble learning techniques.

Arizona State University

Oct. 2021 – Present

Building Manager at Memorial Union

- Manage daily operations and supervise **35+** Event Assistants. Ensured the smooth execution of over **2000** events.
- Created and conducted training programs for new hires. Enforced emergency protocols and maintained high standards of professionalism across all building operations.

University Academic Success Program, ASU

Aug. 2022 – Present

Engineering Tutor

- Mentored over **12,000** students with up to senior-year level courses in CS, Math, and Physics, and received the Sun Devil Appreciation Award **5** times for outstanding support.

Projects

Thred

Jan. 2025 – May 2025

React.js, CSS, JavaScript, Axios, Node.js, UI/UX Design, OpenAI Integration

- Built a responsive full-screen chatbot interface using React and CSS, mimicking ChatGPT UI, to improve user experience and interface fluidity—boosting usability and engagement by **40%** in user testing.

SoccerSense

Jun. 2024 – Aug. 2024

Python, Deep Learning, Computer Vision, OpenCV, YOLO, PyTorch, KMeans, Pandas, Numpy

- Developed an application for live analysis of soccer games, incorporating live tracking, interpolation, perspective transformations, and clustering algorithms. Achieved **82%** accuracy in providing live updates on team and individual player statistics.

SyncLink – a Network File System

Dec. 2023 – Jan. 2024

C, Shell Scripting, Operating Systems, System Call, Networking, Socket Programming

- Devised a robust Network File System (NFS) supporting seamless file operations for **10+** users. Optimized server response time through efficient management of distributed storage

ThreadIt

Nov. 2023 – Dec. 2023

MongoDB, ExpressJS, ReactJS, NodeJS, Docker

- Constructed a social media platform inspired by Reddit, leveraging the MERN stack, enabling over **1,000** user registrations and **200+** subthreadit creations, with advanced features like fuzzy search, user reporting, and Docker deployment for seamless scalability.

Achievements

USA National Beach Ultimate Championship	Huntington, California
Ranked 4th Nationwide as a Debutant team in 2023; ranked 3rd in 2024	May 2024, May 2023
Institute of Electrical and Electronics Engineers (IEEE) Grant	Tempe, Arizona
Secured 1st place in an IEEE competition with a visionary project proposal, winning \$5,500 in funding.	Fall 2021
Youngest Jaipur AU Half Marathon Finisher	Jaipur
Designed a 12-week training plan, maintaining 15+ weekly miles; successfully completed half marathon as a 14 year old	Feb. 2018

Positions held

Executive Board (Secretary)	Indian Students' Association
Led product launches. Coordinated high-profile events, boosting attendee satisfaction by 30%	2023 – 2024
Executive Board (Travel manager)	Men's Ultimate Frisbee at ASU
Optimized team travel using a centralized calendar. Deployed a real-time tracking for 25+ players	2022 – 2024
Board of Directors (Director of Production)	Indian Students' Association
Led a team of 15, delivering 30+ projects; streamlined reviews, cutting feedback loops by 30%	2021 – 2023

Technical Skills

Languages: Python, Java, C++, C, CSS, C, Ubuntu, MySQL, MATLAB
Libraries and frameworks: Django, Flask, JavaFX, Pytorch, React, MongoDB, OpenCV, scikit-learn, Numpy, Pandas
Fields: Software Development, Machine Learning, Computer Vision, Digital ASIC
